THE FUTURE

Vision

Be an Internationally acclaimed University and Centre of Excellence in Teaching and Research.

Mission

Dedicated academicians, who are experts in traditional and current technology oriented education methods to deliver the best quality teaching to students.

Curriculum on par with International Standards coupled with a thrust to Creative thinking, Ethical Values, Experimental Learning and Societal concern towards achieving a world class status.

All our efforts to groom students through language skills, soft skills, sports, cultural programmes, mentoring and innovative entrepreneurship.

Thrust on quality research, specialization, technology development and community service. An Educational environment with a green campus, where students can follow their chosen fields and attain their full potential without any constraint will be provided besides ensuring cent percent placement of students.

Chancellor's Message

Education is an instrument to create a knowledgeable society. India moves ahead in the path of providing education to all sections of population across the nation. Provision of opportunity to pursue higher education to all eligible candidates equitably would be the best way to create holistic development of a country. The future of India lies in the hands of well educated, scientific, tech-savvy, creative youth who would uplift the country to great height in all aspects. In such a scenario, higher education provided to students should incorporate scientific temper, new technologies, creative thinking, soft skills, mental strength, societal vision and ethics. This could be realized only through standard templates of higher education. Universities which inculcate a special thrust to research, case based training, innovation, entrepreneurship and leadership qualities is the need of the hour. Tamilnadu, the southern-most State in India, has achieved the best ranking in higher education status among all other States of India and still strives to reach the pinnacle of 100 percent gross enrollment ratio in higher education. A combined effort by both Government and Private players will make this possible in near future.

Dhanalakshmi Srinivasan University, a private university in TamilNadu aims at offering an optimal vibrant platform to National and International students from various socio-economic and cultural backgrounds to fulfill their aspirations. The University stands apart in giving due importance to the Academic Ambience, Syllabi, Pedagogy, Faculty, Smart Classrooms, Laboratories, Technical Expertise, Safety in the design of the campus. Located in the central district of TamilNadu, Tiruchirappalli, It is well connected by all modes of transport.

SCHOOL OF Arts & Science

Programme Offered

UG

- B.Com.
- B.Com. Computer Applications
- B.C.A.
- B.Sc. Computer Science
