About the University

Dhanalakshmi Srinivasan University (DSU) has been established under the Tamil Nadu Private Universities Act, 2019, located in Tiruchirappali, Tamil Nadu, India. The uniqueness of DSU lies in its multi-disciplinary nature in offering a wide range of academic programmes encompassing medicine, paramedical, engineering and agricultural sciences. Our motto is 'Education for the real World' with dedication and commitment towards nurturing the future generation. Green ambience with state-of-the-art infrastructure along with top-class faculty aims to serve the need of national and international students.

Vision

- ◆ Be an Internationally acclaimed University and Centre of Excellence in teaching and research.

Mission

- ◆ Dedicated academicians, who are experts in traditional and current technology oriented education methods to deliver the best quality teaching and training to students.
- ◆ Curriculum on par with international standards coupled with a thrust to creative thinking, ethical values, experiential learning and societal concern towards achieving a world class status.
- ◆ All our efforts to groom students through language skills, soft skills, sports, cultural programs, mentoring and innovative entrepreneurship.
- ◆ Thrust on quality research, specialization, technology development and community service.
- ◆ An educational environment with a green campus, where students can follow their chosen fields and attain their full potential without any constraint will be provided besides ensuring cent percent placement of students.

Chancellor's Message

Education is an instrument to create a knowledge society. India moves ahead in the path of providing education to all sections of population across the nation. Provision of opportunity to pursue higher education to all eligible candidates equitably would be the best way to create holistic development of a country. The future of India lies in the hands of well educated, scientific, tech savvy, creative youth who would uplift the country to great height in all aspects. In such a scenario, higher education provided to students should incorporate scientific temper, new technologies, creative thinking, soft skills, mental strength, societal vision and ethics. This could be realized only through standard temples of higher education. Universities which inculcate a special thrust to research, case-based training, innovation, entrepreneurship and leadership qualities is the need of the hour. Tamilnadu, the southern-most State

in India, has achieved the best ranking in higher education status among all other States of India and still strives to reach the pinnacle of cent percent Gross Enrollment Ratio in higher education. A combined effort by both Government and Private players will make this possible in near future.

Dhanalakshmi Srinivasan University, a private university in Tamil Nadu aims at offering an optimal vibrant platform to national and international students from various socio-economic and cultural backgrounds to fulfill their aspirations. The University stands apart in giving due importance to the academic ambience, syllabus, pedagogy, faculty, smart classrooms, laboratories, technical expertise, safety in the design of the campus. Located in the central district of Tamil Nadu, Tiruchirappalli, it is well connected by all modes of transport. Our University, on par with contemporary

first line Universities of the World, proposes to meet the needs of the student aspirants, parents, employers and the society without compromising in the quality. More importance is given to creativity and entrepreneurship training to students from the beginning. This has been the main agenda of the University so that more employers would be created than employees. The uniqueness to be highlighted is that all disciplines of higher education are present under one campus; Medicine, Paramedical, Law, Engineering, Agriculture, Management, Architecture and Pharmacy. Interdisciplinary, multicultural and cross stream fusion could make each student achieve his full potential and contribute to the societal well-being with ease. In turn the outgoing students are transformed into confident, empowered, satisfied and happy citizens.

Shri. A.Srinivasan
Chancellor

School of Medicine
